

Bone Marrow Donor Drive

Amy
Itta Aliza bas Tova

“He who saves one life, it is as if he had saved the entire world.” — Talmud

You may be her miracle match!

Amy has leukemia and needs a bone marrow transplant to survive. Since tissue type is inherited, the best chance of finding a genetically matched donor for Amy, as well as hundreds of other patients in similar circumstances lies with those of Eastern-European Jewish ethnic ancestry. Representatives from the Gift of Life Bone Marrow Foundation, North America's only Jewish donor Registry, will be present to register potential donors and answer your questions about this life-saving medical resource for the Jewish community.

✧ Donors will be entered into the Gift of Life Bone Marrow Registry for the benefit of patients worldwide in desperate need of life-saving matches.

✧ Eligible donors must be between the ages of 18-60 and in general good health.

✧ Registration involves a simple swab of cells from inside the cheeks (No blood required at this stage).

✧ Gift of Life's mission is to increase the representation of the Jewish people in the registry.

✧ Those previously tested do not need to be retested.

Sunday,
November 19th

9:00 a.m. to 5:00 p.m.
