

UNIVERSITY  
OF MANITOBA

June 2018

*Notice of **NEW** Neuroscience Graduate Course Offerings*  
(please post)

**Fall Term 2018:**

**IMED7112** - Fundamental Cellular Neurobiology (*Sept - Oct*)

**IMED7114** - Fundamental Neural Development and Plasticity (*Oct - Dec*)

**Winter Term 2019:**

**IMED7116** - Fundamental Systems Neuroscience (*Jan - Feb*)

**IMED7118** - Fundamental Neurobiology of Disease (*Mar - Apr*)

- These **4 new 1.5 credit hour graduate courses will replace:**  
IMED7101 Fundamentals of Neuroscience I (3 credit hours) and,  
IMED7102 Fundamentals of Neuroscience II (3 credit hours)
- None of these courses is a prerequisite to the others, so you may choose to take some, or all of them.
- These interdisciplinary courses will held at the Rady Faculty of Health Sciences, Bannatyne Campus

*Tuesdays & Thursdays*

*3:00 - 4:30 p.m.*

**Dept. Physiology & Pathophysiology Conference Room,  
431 BMSB, (4<sup>th</sup> Floor, Basic Medical Sciences Building)  
Rady Faculty of Health Sciences Campus**

Registration is open to all graduate students enrolled in any Faculty/College/Department interested in Neuroscience from the Fort Garry or Bannatyne Campuses, and the St. Boniface Research Centre.
