

**Department of Plant Science**  
**Advanced Plant Science Seminar Schedule – Winter Term 2020**  
**Carolyn Sifton Lecture Theatre, 130 Agriculture Building**

Date	Presenter	Seminar Topic/Title
February 20, 2020	Winter Break (Reading week)	
February 26, 2020*	FAFS seminar	
March 5, 2020	Dr. Miguel Uyaguari-Diaz, Assistant Professor Microbiology, Faculty of Science University of Manitoba	"Microbial Diversity in the Aquatic Environment: Experiences with Function and Sequence-based Metagenomics"
March 12, 2020	Dr. Helen Booker Associate Professor, Flax Breeder Department of Plant Sciences College of Agriculture & Bioresources University of Saskatchewan	Early Flowering Epi-mutants of "Royal" Flax
March 18, 2020*	FAFS seminar	
March 26, 2020	Kenny So, PhD Student Department of Plant Science University of Manitoba	"Exploring the Diversity of the Storage Protein Cruciferin in Canola ( <i>Brassica napus</i> L.)"
April 2, 2020	Jia Sun, PhD Student Department of Plant Science University of Manitoba	"Effects of Training Population on Genomic Selection in <i>Brassica napus</i> L."
April 9, 2020	Dr. Aleeza Gerstein, Assistant Professor Departments of Microbiology & Statistics University of Manitoba	"Genome Evolution in Fungal Microbes"
April 15, 2020	FAFS seminar	
April 16, 2020	Uzzal Liton, PhD Student Department of Plant Science University of Manitoba	TBA

All Seminars at held on Thursdays at 3:30pm (Coffee at 3:00pm)

\* Faculty Seminars are held on Wednesdays
