To participate in the competition, candidates must meet the following eligibility conditions:

- \* be registered or have been registered in a Canadian higher education institution, in a thesis based research program during the current academic year (September 2020 to August 2021) or have obtained their degree during this academic year;
- \* participation of masters students is encouraged; however, eligibility in the National Competition is restricted to Ph.D. candidates;
- \* applicants are only allowed one slide, no animation is allowed, to illustrate their words. This will be projected on a screen during their presentation;
- \* be French-speaking or speak French;
- \* be available to present themselves at the national final and the preparatory meeting, which will take place on the occasion of the 88th Acfas Congress;
- \* present a sufficient state of progress of their doctoral research project;
- \* students who have competed in 3MT are eligible to also compete in Ma thèse en 180 secondes. You cannot compete if you have previously won at a national competition for 3MT or Ma thèse en 180 secondes.
- \* the winner who received the first prize from the jury at the national final must be available and present at the international final and related activities.
