

COLLEGE OF COMMUNITY AND GLOBAL HEALTH

Undergraduate Courses at Fort Garry Campus

Addictions in the Family

This course provides an overview of alcohol/substance use and gambling in Canada. It covers theories, risk and protective factors, pharmacological principles and the impact of addictions on individuals, families and communities. Prevention, intervention and treatment issues will be addressed, along with considerations related to age, gender, culture, socioeconomic status and sexual orientation.

✓ **CHSC 3002** (3 credits)

✓ **FallTerm 2026**

Prerequisites: One of FMLY 1000, FMLY 1010, the former FMLY 1020, PSYC 1200, the former PSYC 1201, SOC 1000, SOC 1201, the former SOC 1200, or written consent of the instructor.
