

**INTERNAL ANNUAL EVALUATION FOR MA STUDENTS
IN THE CLINICAL TRAINING PROGRAM**

Progress for the year running May 1, _____ to April 30, _____
(year) (year)

Student name: _____

Current program and year (e.g., MA2): _____

Academic advisor(s): _____

INSTRUCTIONS: This evaluation is intended to complement the annual progress report you prepare for the Faculty of Graduate Studies (FGS). Please provide your advisory committee with a completed copy of the current form in time for it to be reviewed at your annual progress meeting. Note that students in practica will need to have the Director of the PSC initial a section of the form. If you complete the form before your winter term coursework and/or practicum are complete, please indicate *expected grades*, based on work completed to date. At your progress meeting, your advisor(s) will complete the final section of this form (Overall Rating), but this rating may be adjusted at a later date if there is a discrepancy between expected and final grades. Once your Overall Rating has been finalized you should submit the completed form, and the completed FGS Annual Progress Report, to the Psychology Graduate Office. The deadline for receipt of both documents is **May 1st**. Note that copies of both forms will be retained in our records; we recommend that you also keep copies. (Extra information for 3.5, 3.6, 3.9 and 3.15 can be provided on the same page.)

PREAMBLE: Data from this report will be used to provide students with annual feedback, and for accreditation purposes. This form is broken into 4 parts. In Parts 1 and 2 we are gathering information used primarily for accreditation purposes. In Part 3 we outline the minimum levels of achievement identified by the clinical program in four core domains: **coursework, research, clinical training/professional ethics, and milestone attainment**; normally, we would expect students to perform above the minimum standards described. For each activity listed in Part 3:

- Students who meet or exceed the minimum expectations will receive a **“satisfactory”** rating.
- Levels of achievement that fall below the minimum will trigger a formal review process that will result in the creation of a remediation plan (**“in need of improvement”** rating) or, in very concerning situations, dismissal procedures (e.g., serious ethical breach; second consecutive **“in need of improvement”** rating)

Ratings provided in Part 3, and other information provided in Parts 1 and 2, are considered in Part 4 (Overall Rating).

^c A student who has not completed the degree requirements within the time limit or within the time limit of the extension will be required to withdraw from the Faculty of Graduate Studies and the notation on the student record will be "Required to withdraw".

PART 4: OVERALL RATING BY THE STUDENT'S ADVISORY COMMITTEE

Please indicate the student's rating based on objective criteria (i.e., ratings provided in Part 3). The Final Overall Rating may differ from the objective rating if the advisor(s) and/or the advisory committee feel that an adjustment is warranted based on information provided in Parts 1 and 2. In this case, a justification for the adjustment must be provided below. **Note that the Final Overall Rating should correspond with that provided on the FGS Annual Progress Report.**

Rating	Level	Criteria for students in full-time study	Rating based on objective criteria	Final Overall Rating*
Satisfactory	Excellent	"Excellent" achievement in at least 2 of Domains A-D and no ratings below "good" in current year

If first Marginal rating, allow re-registration but improvement is required. Please provide additional details, below*, re: the plan of action for the coming year, including timeline and anticipated next committee meeting date.		
	Inadequate	Second consecutive "in need of improvement" rating; student has committed serious ethical breach; and/or student has exceeded time limit of an extension ^a . Any of the above constitute grounds for requiring the student to withdraw from the program. Please provide additional details below.		

^a Requests for extensions of time to complete the degree will be considered on an individual basis and must be submitted to the Dean of the Faculty of Graduate Studies **at least three, but no more than four, months** prior to expiration of the respective maximum time limit. When extensions are requested, they are only granted under exceptional circumstances; when granted, they are **normally for 4-8 months in duration**. A student who has not completed the degree requirements within the time limit or within the time limit of the extension will be required to withdraw from the Faculty of Graduate Studies and the notation on the student record will be "Required to withdraw".
