Re: Asbestos Abatement Notification

Please be advised that a Type 2 asbestos abatement is scheduled to take place in Room 115 within Fletcher Argue. The work is to be carried out afterhours and will not impact daytime activities. Information regarding the abatement can be found below:

| | | | |
|----------------------|----------------------------------|-----|---------------------------|
| Building: | Fletcher Argue - 111 | | |
| Location(s): | Rm 115 | | |
| Duration of work: | Friday, March 28, 2025 | to | Saturday, March 29, 2025 |
| Hours of work: | 6:00 PM | to | 6:00 AM |
| Project Coordinator: | Melissa Dzwonek /Tricia Plawicki | Ph. | 204 297 0776/431 276 0057 |

A pre-qualified asbestos abatement contractor has been employed for the scope of work. All work is to be performed in accordance with Workplace Safety and Health Regulations for the province of Manitoba, in addition to University standards as outlined in the Asbestos Management Program.

Throughout the abatement, external environmental health and safety consultants as well as University staff will be reviewing the work for compliance purposes. In addition, air monitoring will be performed by an external consulting agency throughout the duration of the project.

It is University practice to remove asbestos containing materials prior to any maintenance or renovation activities which could damage or disturb the material, thus ensuring the safety and health of faculty, staff, students, and visitors.

If you have any questions or concerns regarding the Asbestos Management Program, please contact the Physical Plant Health and Safety Program at (204) 297-0776.

This memo is to be distributed to all building occupants whose work space will be directly impacted by the scheduled asbestos abatement work.
