

## **Bicycle mechanics spread holiday joy with Cycle of Giving**

***Saturday December 16th & Sunday December 17th, 2011***

**Cycle Of Giving** is bringing volunteer mechanics together to build over 150 bicycles for Winnipeg children in need. We hope to raise \$15,000 to purchase lights and locks for kids and provide free bikes and bike programming across the city.

On **December 17<sup>th</sup> – 18<sup>th</sup> the Atomic Centre @ 167 Logan** will be transformed into a magic workshop where salvaged and donated used bicycles are turned into holiday dreams come true. Bicycles will then be distributed between ten different community organizations who work with families and/or children.
