STUDENT REVIEW OF ASSIGNED PATIENTS:

STUDENTS MUST PRINT OUT A LIST OF ALL THEIR PATIENTS FROM AXIUM. Reviewing their axiUm list, follow up with patients that they are currently assigned but have not yet booked or require to be dispositioned. Inform your Patient Care Coordinator (PCC) if there are any patient management issues, patients that are delaying treatment, or refusing disease control.

Patient Care Coordinators (PCC) will be reaching out to students who have patients that have not been seen since assignment.

PATIENTS TO BE RELEASED FROM TREATMENT

Patients that have COMPLETED TREATMENT and are NOT RETURNING

This includes patients where their treatment, by their own choice, is completed. These are patients that will not be returning to the College for any reason (e.g. they do not wish to continue here, or 'will think about it'; are not deemed suitable or do not wish to participate in the DH maintenance program etc.). All contact notes should be updated to reflect this.

Please note: if your patient has been deferring treatment throughout the academic year and they are now wanting to defer treatment to the following year, please do not provide assurances to these patients that they will be seen the following academic year. Update deferral of treatment in CONTACT NOTES. CSS will decide as to whether the patient will be maintained as an active patient.

Please note: any types of transitional treatment (e.g. Provision crowns/Heat-Processed Crown, endodontic treatment with IRM/Cavit or other types of temporary materials in place (e.g. caries control).

Once you have completed the list of patients that will be released from treatment at the College, your **PCC** will send a letter to the patient on your behalf once reviewed and notified.

IN-PROCESS TX:

Please print the following report and review all in-process procedures codes that could be generating a balance. If there are any in-process procedure codes, you will have three options to resolve them:

- Treatment will continue during the winter clinical session.
OR
- If the procedure code is not going to be completed this academic year (September 2025 to May 2026), send correction card form to **PCC LEADS prior to December 1, 2025** to suspend the procedure code and review the balance with financial staff.
OR
- If you want to have the procedure code deleted or changed, complete an **axiUm correction card** form prior to **December 1, 2025**. If the procedure is completed but still in process in axiUm, have an instructor who oversaw the procedure complete the procedure. (Correction card may be needed to back date it.)
- All In-Process codes need to be reviewed prior to your **axiUm Review appointment with a PCC LEAD scheduled during Mini Winter Clearance.**
