

VIRTUAL OPEN HOUSE

Clinical Dietitian Careers at Fraser Health

Are you a **clinical dietitian** looking to upskill or for a change in practice? Whether you're experienced in your career or are newly graduated, we'd love to meet you at our virtual open house on Monday, February 23.

Hear from our clinical practice leads and experts about the diverse opportunities and flexible work options available at Fraser Health. Learn about our specialty areas such as medicine, surgery, critical care, neurosurgery, cardiology, orthopedics, pediatrics and neonatal intensive care, mental health, diabetes and cardiac clinics, as well as general outpatient nutrition services.

Now is the time to bring your passion for nutrition to Fraser Health, where you'll be part of a positive and caring work environment.

Hear from our clinical practice leads and recruitment experts to learn about:

- Diverse work environments
- Our robust New Graduate Transition Program
- Job supports available to you: regional dietitian educators, research dietitian, dietitian practice initiatives lead, dietitian practice leaders, dietitian supervisors
- Educational opportunities and how to apply
- The many reasons why you should work at Fraser Health

[**Submit your questions in advance**](#) or book a personalized 15-minute conversation with a recruiter. Register now to secure your spot.

Monday

February 23, 2026

Group information session
