

Doctors Manitoba for Medical Students

Doctors Manitoba exists to ensure every physician has the support they need to deliver exceptional care to Manitobans, and we do that by strengthening and supporting the whole physician. Our mandate and services extend to medical students, because you are part of the medical profession. Medical students can join Doctors Manitoba for free, with access to services and resources.

What Medical Students Get from Doctors Manitoba

- **A complimentary membership**, which is normally \$1,937.25 for fully licensed physicians.
- **Doc360 Physician Health** services for you and your family, such as peer support, counseling, and more. These complement other supports through Student Services @ Bannatyne.
- **Mentorship** to connect you with other students, residents and physicians.
- **Survival Guides** developed in partnership with the MMSA focused on pre-clerkship and clerkship years.
- **Newsletters and updates** on what's happening within the medical profession and health care system – the most-read resource for physicians.

As students transition into residency and independent practice, Doctors Manitoba will be with them every step of the way. This includes negotiating competitive remuneration for physicians, offering benefit programs such as maternity/parental leave, and advocating for the profession at all levels.
