Writing a Teaching Philosophy Statement

One-on-One Coaching with Maurice Mierau

Winter Term, 2026

The Alan Klass Program in Health Humanities, Rady Faculty of Health Sciences and the Office of Innovation in Scholarship and Medical Education (ISME) are pleased to provide the opportunity for one-on-one coaching for the development or refinement of a **Teaching Philosophy Statement** with Maurice Mierau.

Maurice provides individualized coaching for writing concise and effective Teaching Philosophy Statements. His many years of experience as an editor in academic, technical, and literary genres leads to meaningful feedback and actionable advice. His suggestions are at the level of presentation, style and copy edit, and not relevant to the subject matter itself.

Maurice Mierau is a Winnipeg writer and editor who has worked extensively in the Max Rady College of Medicine with a variety of audiences including faculty.
