

MEMORANDUM

To: All College of Nursing Faculty and Students

From: Jennifer Dunsford, Director Clinical Education

Re: COVID-19 Student Support Update

Date: June 30, 2023

Effective June 30, 2023, the COVID-19 Student Support Team will be discontinued and will no longer be tracking COVID-19 or other respiratory related illnesses. Absence declaration forms must be submitted for each absence, however, the [NursingC19@umanitoba.ca](mailto:NursingC19@umanitoba.ca) inbox will no longer be monitored.

The latest [Shared Health Guidelines](#) (Oct. 31/22) should be followed when experiencing a respiratory illness. The COVID-19 Student support Team will still be available via the above email for students and staff to consult if they are unsure as to how to proceed.

Please see the attached Guideline and algorithm. These will also be posted on the College of [Nursing UM Learn](#) site.

I want to thank this team for the significant care and attention they have provided to students, faculty and staff during some very uncertain times over the past three years. It is an impressive testament to the way nurses can find solutions and get things done under difficult circumstances, and to the importance of caring for our communities.
