

RESEARCH SEMINAR SERIES

Intrinsic and extrinsic factors influencing the clearance of mycophenolate: thinking inside and outside of the box.

October 29, 2025 | 12:00 pm – 12:50 pm

164 Apotex Centre, Bannatyne Campus

Dr. Tony Kiang

Faculty of Pharmacy and Pharmaceutical Sciences
University of Alberta

Dr. Tony Kiang is a Tenured Associate Professor in the Faculty of Pharmacy and Pharmaceutical Sciences at the University of Alberta. Dr. Kiang is in a unique position for being able to teach and research in both clinical and experimental sciences. Dr. Kiang has extensive experience with pharmacokinetic modelling, drug analysis, and toxicological assessment in various disease states, as evident by his 54 peer-reviewed papers (mostly as the primary or the corresponding author), 2 books, and 7 book chapters in high impact publications. He has been highly cited (h-index 26; i10-index 40; Google Scholar analytics: [Kiang publications](#)) and serves on the editorial boards of a number of well-regarded journals (e.g., *Clinical Pharmacokinetics*; *British Journal of Clinical Pharmacology*). Dr. Kiang is also sought-after internationally by the pharmaceutical industry for his consulting expertise in drug kinetic modelling and therapeutic drug monitoring. Dr. Kiang's laboratory is funded by multiple grants, including Tri-Council funding to support his unique role in facilitating the translation of research knowledge from the bench to the bedside.
