

RESEARCH SEMINAR SERIES

Levofloxacin Loaded Chitosan and Poly-lactic-co-glycolic acid Nanoparticles against Resistant Bacteria; Synthesis, Characterisation and Antibacterial Activity

January 22, 2025 | 12:00 pm – 12:50 pm

207 A/B Chown Building, Bannatyne Campus

Dr. Hamid Saeed

Head of Pharmaceutics

University College of Pharmacy, Pakistan

Dr. Hamid Saeed is a Professor & Head of Pharmaceutics, at the University College of Pharmacy, University of the Punjab, Lahore, Pakistan and runs his research lab, Stem Cell and Nano-medicine Laboratory, to pursue research themes; re-purposing of drugs, identification of clinical biomarkers of improved diagnostic value, medicine prices, clinical and social pharmacy aspects of a Pakistani society. While being a frequent speaker in the field, he has published more than 140 full length articles in indexed, peer-reviewed journals. Recently, he registered two clinical trials on the role of pharmacist in primary and tertiary health care to improve patient outcomes. He also receives a 4.2 million PKR research grant under NRPU from HEC, Pakistan to study the clinical biomarkers of breast cancer resistance for early diagnosis and optimal therapy selection.
