Metabolomics Assisted Applications in Food Science

**Chamali Kodikara, BSc, (MSc reading)
Graduate Research Student (RAP)
Agriculture and Agri-Food Canada, Morden Research and
Development Centre, Morden, Manitoba, Canada
Canadian Centre for Agri-Food Research in Health and
Medicine (CCARM), Department of Food & Human
Nutritional Sciences, University of Manitoba, Winnipeg**

Chamali Kodikara is a MSc. student in Agriculture and Agri-food, Canada at CCARM and the Department of Food & Human Nutritional Sciences, University of Manitoba. Chamali received her Bachelor's from the Department of Animal Science, University of Peradeniya, Sri Lanka in 2019. She was selected as an International student to receive the ERASMUS scholarship funded by the European Union to study in the Department of Analytical Chemistry at Uppsala University, Sweden for her achievements in her home country. Her research interests include food chemistry, analytical chemistry, bioactive compound identification and quantification.

Currently, she is working on identifying phenolic compounds, fatty acids, and phytosterols in Canadian berries grown in prairies as a source of potentially bioactive molecules for cardiovascular health. This is done under the supervision of Dr. Champa Wijekoon and Dr. Nandika Bandara at Plant Bioactives Lab at CCARM and in Morden, MB at the Morden Research and Development Center, Science and Technology Branch under the supervision of Dr. Sura Srinivas.
