Agricultural Urbanism: Designing Healthy Cities Around the Concept of Food

Steven Clarke, BCSLA, CSLA
Associate Professor, MLS Graduate Program Coordinator,
Landscape Architecture Community Outreach Coordinator,
University of Guelph
Guelph, Ontario

Steven Clarke, BCSLA, CSLA, is a landscape architect and urban designer with a passion for bringing communities together. He works to promote a shift towards regenerative and resilient communities through collaborative research, design, and action. He is an experienced researcher, facilitator, advocate, and educator whose transdisciplinary projects have been recognized for their design excellence.

Steven is a Core Team Member of [Globally We Design](#) (GloWD), a global thought-leadership initiative addressing critical issues through innovative design thinking, practice, and processes. He is also a co-investigator for the CIHR-NSERC-SSHRC [Healthy Cities Research Training Platform](#) (HCRTP) where participants in his Implementation Lab use a transdisciplinary approach to tackle topics related to Smart Healthy Cities through implementation science and design thinking in a virtual lab.

At the University of Guelph, Steven serves as an Associate Professor, Graduate Program Coordinator in the School of Environmental Design and Rural Development (SEDRD). Prior to his tenure at the University of Guelph, he was the Director of the UNLV Downtown Design Center (DDC) in Las Vegas. During his time in Las Vegas, he was appointed by the City Council to the Citizens Advisory Committee for the Redevelopment Agency, where he served as Chair in his final term.
