July 24, 2024

11:00 AM – 12:00 PM
(Central Standard Time-CST)

Samuel N. Cohen Auditorium
St. Boniface Albrechtsen
Research Centre
351 Tache Ave, Winnipeg

Development and application of RNAi technology to protect crop plants against fungal pathogens

Mark Belmonte, PhD
Professor, Department of Biological Sciences
University of Manitoba
Winnipeg, Manitoba

Dr. Mark Belmonte is a Professor of Biological Sciences at the University of Manitoba. With an extensive academic journey, including a PhD in plant science and postdoctoral training at UC Davis, Mark has become a leading expert in crop production and protection technologies.

Mark has published his work over 65 times, been the recipient of numerous awards including CBC's Top 40 under 40, the Canadian Society of Plant Biologists Research Excellence Award and has been recognized for his outstanding contributions to research, teaching and outreach by the Winnipeg Foundation and the University of Manitoba. Mark is devoted to promoting science education and research at outreach events across Canada and takes pride in training the next generation of young scientists.
