

Department of Plant Science
Advanced Plant Science Seminar Fall 2014
Carolyn Sifton Lecture Theatre, 130 Agriculture Building

Date		Presenter	Seminar Topic/Title
Sept 17, 2014		Faculty Seminar Dr. Michel Aliani, Department of Human Nutritional Sciences	No Target is the Target: Application of Metabolomics to Food and Biological Fluids for Hypothesis Generation
Sept 25, 2014		Gnanesh Nanjappa Postdoctoral Fellow Department of Plant Science	Development of SNP Markers for Breeding Disease Resistant Oat Varieties
Oct 2, 2014		Sanjay Saikia Postdoctoral Fellow Department of Plant Science	Iron Acquisition and Virulence in the Human Fungal Pathogen <i>Cryptococcus</i> <i>neoformans</i>
Oct 9, 2014		Jun Liu Ph.D. Student Department of Plant Science	QTL Mapping of Glucosinolates and Resistance to <i>Sclerotinia</i> Stem Rot in Canola
Oct 15, 2014		Faculty Seminar Dr. Ryan Cardwell Agribusiness and Ag Economics	Milked and Feathered: The Regressive Welfare Effects of Canada's Supply Management Regime
Oct 23, 2014		Dr. Doug Cattani Assistant Professor Department of Plant Science	Lessons Learned from Genetically Modified Perennial Plants
Oct 30, 2014		Dr. Arvindkumar Hirani Postdoctoral Fellow Department of Plant Science	Mapping and Transferring of Clubroot Resistance Genes from <i>Brassica rapa</i> into Canola
Nov 6, 2014		Sarah Semmler Graduate Student Biological Sciences	Network Structure and Plant-insect Dynamics in Tall Grass Prairie
Nov 13, 2014		Dr. Usha Thiyam Assistant Professor Human Nutritional Sciences	Smokey Canola
Nov 19, 2014		Faculty Seminar	TBA
Nov 27, 2014		Nosheen Elahi Ph.D. Student Department of Plant Science	The Potential of Using the BnLEC1 and BnFUSCA3 Genes to Manipulate Oil Content in <i>Brassica napus L.</i>
Dec 3, 2014		Faculty Seminar Dr. Qiang Zhang Biosystems Engineering	TBA

All Seminars are held on Thursdays at 3:30pm (Coffee at 3:00pm)

* Faculty Seminars are held on Wednesdays
