... making a  
difference.

# Exchange you can *believe in!*

The Canada-U.S. Fulbright Program promotes the highest standard of excellence in collaborative research and exchange across all disciplines.

Scholarships provide students and scholars from Canada and the United States with the opportunity to go beyond the classroom, the laboratory, and the library, and

**integrate experience with research and education.**

A Fulbright award gives students and scholars the benefit of conducting world-class research in a new environment

*from a fresh perspective.*

*diversity* community  
**leadership**  
scholarship

*knowledge*
