

An Ode to Gary Martens

There once was a teacher named Gary
An expert at farming the prairie
Many aggies he did teach
Respect the land he would preach
Your thoughts & your crops they must vary!

Gary decided now was the time
To do what he wished in his prime
He'd work his own farm
His neighbours he 'd charm
And the skies his airplane would climb.

So at 2 on the 30th of May
We'll all gather in 218 to say
Our Best Wishes to Gary
For many years of merry
We'll miss you each 'n every day!
