

You are cordially invited to attend

Dr. Patrick Choy Distinguished Lectureship

Wednesday, January 27, 2021

Lecture title

Prospective De Novo Human Models of Cancer

Connie J. Eaves, PhD FRS(Canada) FRS (Edinburgh)

Professor, University of British Columbia (UBC)

Distinguished Scientist, Terry Fox Laboratory, British Columbia Cancer Agency

Dr. Eaves directs an internationally recognized research program in normal and cancer stem cell biology, human leukemia, and normal and malignant breast stem cell biology. She has published more than 500 papers and has a long track record as a global scientific leader and conscientious mentor of trainees at all levels. She has also been a contributor to science policy and development in Canada and abroad and has received numerous national and international awards for her many accomplishments.
