What If Your Research Could Change the World?

(Spoiler: It Can)

Build momentum for your entrepreneurial journey with *Validate CORE.*
This is a comprehensive 16-week program designed to push your research idea toward real commercial insight.

Step into the entrepreneurial mindset, rigorously test your assumptions, and chart a path forward grounded in real market data. Validate CORE guides you through a full journey from idea to insight.

By the end of the program, you'll have the insight, tools, and confidence to determine your path forward—whether that means launching a venture, licensing, pivoting, or continuing research. The whole time you will be supported by a strong network of facilitators, mentors, peers, regional innovation partners, funding sources, incubators, and accelerators.
