Yes, I am a Canadian citizen

Signature

Your application must include this cover page as well as the following:

1. A resumé or curriculum vitae outlining employment and other relevant personal or professional experience.
2. An essay of 300 words or less according to the following guidelines:
 - a. If you are a **Graduate Student**,
 - i. Describe your research interests in general and how your current thesis research pertains to mining engineering (engineering geology, mining geology, or geophysics) or hard rock geology;
 - ii. Describe how your work experience meets the following terms of the award: *"Applicants must demonstrate that they possess the maturity required to work in the mining industry by providing evidence of enough background in mining (through part-time or summer employment) to confirm an understanding of life in the mining profession."*
 - b. If you are an **Undergraduate Student**,
 - i. Describe your academic program and interests, including course selection and thesis or report project (if known), as they pertain to mining engineering or hard rock geology
 - ii. Describe how your work experience meets the following terms of the award: *"Applicants must demonstrate that they possess the maturity required to work in the mining industry by providing evidence of enough background in mining (through part-time or summer employment) to confirm an understanding of life in the mining profession."*
