7:30 PM King's Head Pub
120 King Street

Canadian Water Resources Association

CWRA-SYP Meet & Greet

To kick off the new school year we invite you to the King's Head Pub to meet new people and learn more about water resources over drinks and food!

The Canadian Water Resources Association, Student and Young Professionals (CWRA-SYP) chapter works to provide students and new professionals in the broad field of water resources with opportunities to network, develop skills, and make a difference. We do this within the framework of the four CWRA objectives:

- Stimulate awareness and understanding of Canada's water resources
- Encourage recognition of the high priority and value of water
- Provide a forum for the exchange of information and opinion pertaining to management of Canada's water
- Participate with appropriate agencies in international water management

We look forward to meeting you at the King's Head!

Promoting Effective Water Management
