

Seminar Series Presents

Jacob Kolody

MSc student

Department of Plant Science

e-mail: kolodyj@myumanitoba.ca

" Manure, Perennials, and Soil Health in the Red River Valley "

His research focuses on using the Cornell Soil Health Test to measure the soil health of soils receiving different management practices. His samples were taken from the Long-Term Nutrient Management BPMs for Manure Applied to Annual and Perennial Crops field Laboratory that Dr. Don Flaten established in 2007 at Glenlea, Manitoba.

Date: Wednesday, January 12ST, 2022

Time: 12:30 pm
