Mama Bear Clan is a community safety initiative that was created by NPDWC's Women's Warrior Circle. A group of mothers, grandmothers, sisters and aunts decided that safety is something that is fostered through relationship: within ourselves, our home, and in the community. Sometimes all people need to feel safe is knowing someone cares about them.

We recognize that women and men share responsibility for community safety which is why we work together in a mutually understood matriarchal leadership structure. The result is our organizing principle: "led by our women, supported by our men."

LED BY OUR WOMEN, SUPPORTED BY OUR MEN
